

How we explored sound.

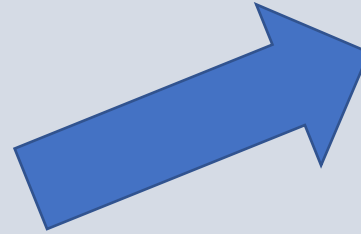

Sound

We used a blindfold to guess who was playing the musical instrument.

We had to listen and guess what its sound could be.

Skills:
DCF
Oracy
Speaking and
Listening

We explored sound with our body. We then made our own body sequence and performed it to our friends. .

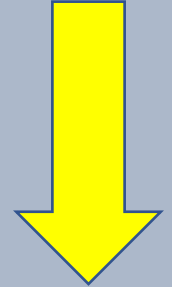

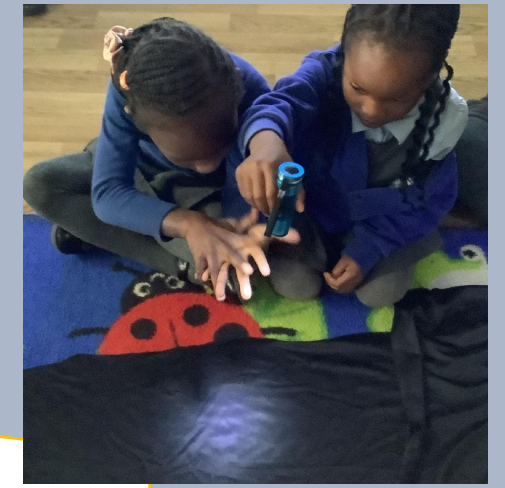

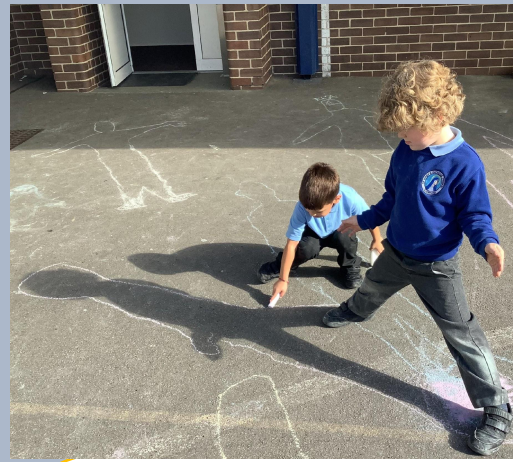

We listened carefully to the instrument being played and had to guess which one it was.

Light

We started the topic by looking at different sources of light.

We explored light by making shadows.

We had to investigate which paper would be the best to make a shadow puppet. We discovered that black paper was best. We made our puppets and performed the story of the Rainbow fish on the light box.
