

Cardiff Castle

Our History topic was based around Cardiff Castle. We kicked started the topic by walking to Cardiff Castle. We learnt about the history of the castle itself and the Bute family. We even met a Knight Jay who taught all about knights including the weapons they use and we got to hold some!

The children learned about different parts of the castle and what they are used for.

The children got creative designing and making their own castles using lots of different mediums.

The children learnt about how diverse the lives of different people in the castle were.

The children got opportunities to explore their interests. They made armour, dressed up as royals and designed their own crown jewels.
