Healthcare Policy

Healthcare Needs Policy for St Mary's Catholic Primary School

Date of issue:	November 2017
Reviewed:	September 2023
Full address and post code:	St Mary's Catholic Primary School, Wyndham Crescent, Canton, Cardiff, CF11 9EF
email address:	stmarysprm@cardiff.gov.uk
Phone number:	029 20225680
Website address for this policy:	www.stmarysprm.cardiff.sch.uk
Name of person responsible for maintaining this policy:	Headteacher – C. Russell ALNCo – S. Richards

1. Key Principles

The staff and governors of St Mary's Catholic Primary School are wholly committed to pursuing a policy of inclusive education that welcomes and supports learners with healthcare needs. This policy is designed to ensure that all learners are able to access their education in a supportive environment, which is sensitive to any healthcare needs. It supports the management of medication and healthcare needs in school, and to support individuals with specific healthcare needs.

At St Mary's Catholic Primary School we understand that healthcare needs should not be a barrier to learning, so we ensure that all staff understand their duty of care to children and young people in the event of an emergency and feel confident in knowing what to do in an emergency.

The roles and responsibilities of school, parents and learners have been identified. Effective communication and cooperation between home and school will enable each to respond to their role.

Our policy has been written in consultation with a wide range of local key stakeholders within school and complies with the Welsh Government Guidance 'Supporting Learners with Healthcare Needs' which was published on 30th March 2017. We also acknowledge and can refer to Cardiff Local Authority toolkit entitled 'Meeting the Healthcare Needs of Children and Young People in Cardiff – A toolkit for Early Years Setting and Schools' (April 2017) for further information, in particular, the management of specific medical conditions.

1.1 Each child including learners with healthcare needs is an individual developing in their own individual way; therefore, it is our aim to encourage the children to see for themselves their own talents, to foster self-confidence, and to develop a sense of personal adequacy, so that each child can cope with the environment, at a level appropriate to that child.

Hopefully, each child will be well balanced, happy and able to develop sensible attitudes to learning, so that they are able to find enjoyment in all aspects of schoolwork, and gain satisfaction from their own achievements.

1.2 Healthcare issues affect each learner individually and support from St Mary's Catholic Primary School may have an impact on their quality of life and future chances. Therefore, the governing body and head teacher ensures arrangements focus on meeting the needs specific to the learner and consider how this impacts on their education, attainment and wellbeing. Arrangements aim to give learners and parents' confidence that provision is suitable and effective.

2. School's legal requirements

Section 175 of the Education Act 2002 places a duty on local authorities and governing bodies to make arrangements to ensure their functions are exercised with a view to safeguarding and promoting the welfare of children in school or another place of learning. This includes supporting learners with healthcare needs.

2.1 In meeting the duties under section, 175 of the Education Act 2002, local authorities and governing bodies must have regard to guidance issued by the Welsh Ministers under this section.

- 2.2 Section 21 (5) of the Education Act 2002 places a duty on governing bodies to promote the wellbeing of learning at the school so far as related to the matters mentioned in section 25(2) of the Children Act 2004, which includes physical and mental health and emotional wellbeing, education, training and recreation, and social well being
- 2.3 The non-statutory advice contained within the document is issued in exercise of the Welsh Ministers' duty to promote the education of the people of Wales and their power in relation to the promotion or improvement of the economic, social and environmental wellbeing in Wales
- 2.4 Being mindful of the Social Services and Wellbeing (Wales) Act 2014. Education settings should be fully aware of this approach and ensure assistance to learners is provided using a holistic approach.

3. Roles and responsibilities

3.1 Schools

St Mary's Catholic Primary School has developed and implemented arrangements in line with legal requirements.

3.2 Governing Bodies

The Governing Body oversees the development and implementation of arrangements including:

- Complying with applicable statutory duties, including those under the Equality Act 2010 (e.g. the duty to make reasonable adjustments in respect of learners with healthcare needs if they are disabled);
- Having a statutory duty to promote the wellbeing of learners. Schools should give consideration to how they can meet these needs, including providing learners access to information and material aimed at promoting spiritual and moral wellbeing and physical and mental health (Article 17 of the UNCRC);
- Considering how they can support learners to develop the skills, knowledge and emotional resilience required to uphold their rights, and the rights of others;
- Ensuring the roles and responsibilities of all those involved in the arrangements to support the healthcare needs of learners are clear and understood by all those involved, including any appropriate delegation of responsibilities or tasks to a head teacher, member of staff or professional as appropriate;
- Working collaboratively with parents and other professionals to develop healthcare arrangements to meet the best interests of the learner;
- Developing and implementing effective arrangements to support learners with healthcare needs. This should include a policy on healthcare needs and where appropriate, IHPs for particular learners;
- Ensuring arrangements are in place for the development, monitoring and review of the healthcare needs arrangements;
- Ensuring the arrangements are in line with other relevant policies and procedures, such as health and safety, first aid, risk assessments, the Data Protection Act 1998, safeguarding measures and emergency procedures;

- Ensuring robust systems are in place for dealing with healthcare emergencies and critical incidents, for both on and off site activities, including access to emergency medication such as inhalers or adrenaline pens;
- Ensuring staff with responsibility for supporting learners with healthcare needs are appropriately trained;
- Ensuring appropriate insurance cover is in place, any conditions are complied with and staff are clear on what this means for them when supporting learners;
- Implementing Local authority Guidance concerning infection prevention out in current guidance (eg toileting, intimate care i.e. where staff come into contact with bodily fluids).

3.3 Head teacher/teacher in charge:

The head teacher ensures arrangements to meet the healthcare needs of their learners are sufficiently developed and effectively implemented. To include:

- Working with the governing body to ensure compliance with applicable statutory duties when supporting learners with healthcare needs, including duties under the Equality Act 2010;
- Ensuring the arrangements in place to meet a learner's healthcare needs are fully understood by all parties involved and acted upon and such actions maintained. The head teacher directly supervises this arrangement as part of the regular reporting and supervision arrangements;
- Ensuring the support put in place focuses on and meets the individual learner's needs, also known as person centred planning;
- Extending awareness of healthcare needs across St Mary's Catholic Primary School in line with the learner's right to privacy. This may include support, catering and supply staff, governors, parents and other learners;
- Appointing a named member of staff who's responsible for learners with healthcare needs, liaising with parents, learners, the home tuition service, the local authority, the key worker and others involved in the learner's care;
- Ensuring a sufficient number of trained staff are available to implement the arrangements set out in all IHPs, including contingency plans for emergency situations and staff absence;
- Having the overall responsibility for the development of IHPs;
- Ensuring that learners have an appropriate and dignified environment to carry out their healthcare needs e.g. private toilet areas for catheterisation or receiving essential medication ;
- Checking with the local authority whether particular activities for supporting learners with healthcare needs are appropriately covered by insurance and any staff are aware of any limits to the activities that are covered;
- Providing annual reports to the governing body on the effectiveness of the arrangements in place to meet the healthcare needs of learners;
- Ensuring all learners with healthcare needs are not excluded from activities they would normally be entitled to take part in without a clear evidence based reason;

- Notifying the local authority when a learner is likely to be away from the St Mary's for a significant period, e.g. three weeks due to their healthcare needs. Ultimately, what qualifies a period of absence as 'significant' in this context depends upon the circumstances and whether the school can provide suitable education for the learner. Shorter periods of absence may be significant depending upon the circumstances;
- Being mindful of the Social Services and Wellbeing (Wales) Act 2014, St Mary's Catholic Primary School refers to this approach and ensures assistance to learners is provided using a holistic approach.

3.4 Teachers, Support Staff and all members of Staff (e.g. catering staff and reception staff):

Any staff member within St Mary's Catholic Primary School may be asked to provide support to learners with healthcare needs, including assisting or supervising the administering of medicines. This role is voluntary. Staff members must receive sufficient and suitable training and achieve the necessary level of competence before they take on the responsibility.

In addition to the training provided to staff that have volunteered or are contracted to support learners with healthcare needs, St Mary's Catholic Primary School ensures staff:

- Fully understand the school's healthcare needs policy and arrangements;
- Are aware of which learners have more serious or chronic healthcare needs, and, where appropriate, are familiar with these learners' IHPs. This includes knowing how to communicate with parents and what the triggers for contacting them are, such as when the learner is unwell, refuses to take medication or refuses certain activities because of their healthcare needs;
- Are aware of the signs, symptoms and triggers of common life threatening medical conditions and know what to do in an emergency. This includes knowing who the first aiders are and seeking their assistance if a medical emergency takes place;
- Fully understand St Mary's Catholic Primary School emergency procedures and are prepared to act in an emergency;
- Ask and listen to the views of learners and their parents, which should be taken into consideration when putting support in place;
- Ensure learners (or their friends) know who to tell if they feel ill, need support or changes to support;
- Listen to concerns of learners if they feel ill at any point and consider the need for medical assistance (especially in the case of reported breathing difficulties);
- Make sure learners with healthcare needs are not excluded from activities they wish to take part in without a clear evidence based reason, including any external trips/visits. This includes ensuring learners have access to their medication and that an appropriately trained member of staff is present to assist where required;
- Are aware of bullying issues and emotional wellbeing regarding learners with healthcare needs, and are prepared to intervene in line with St Mary's Catholic Primary School policy ;

- Are aware that healthcare needs can impact on a learner's ability to learn and provide extra help when needed;
- Support learners who have been absent and assist them with catching up on missed work within reason– this may involve working with parents and specialist services;
- Keep parents informed of how the healthcare needs is affecting the learner in St Mary's Catholic Primary School. This may include reporting any deterioration, concerns or changes to learner or staff routines.

3.5 Parents/Carers/Learners

It is vital that learners and parents are actively involved in the planning of support and management of healthcare needs. Meeting the individual's needs should be at the centre of decision making and processes. The UNCRC states learners should have access to appropriate information essential for their health and development and have opportunities to participate in decisions affecting their health.

3.5.1 Parents and learners will:

- Receive updates regarding healthcare issues/changes that occur within St Mary's Catholic Primary School;
- Be involved in the creation, development and review of an IHP (if any). The parent and learner may be best placed to provide information about how their healthcare needs affect them. They should be fully involved in discussions about how the learner's healthcare needs will be met in St Mary's Catholic Primary School, and contribute to the development of, and compliance with, their IHP;
- Provide the school with sufficient and up to date information about healthcare needs, including any guidance regarding the administration of medicines and/or treatment from healthcare professionals. Where appropriate, learners should be encouraged and enabled to manage their own healthcare needs;
- Inform St Mary's Catholic Primary School of any changes such as type of medication, dosage and administration instructions in writing ;
- Ensure the nominated adult is contactable at all times and all necessary forms are completed and signed;
- Inform St Mary's Catholic Primary School if their child has/had an infectious disease or condition while in attendance.

3.6 Local Authority

Local Authorities will ensure education provision is available to learners, and:

- Must make reasonable adjustments to ensure disabled children and young people are not at a substantial disadvantage compared with their peers. This duty is anticipatory.

For example, learners should not be disadvantaged when leaving primary school and beginning secondary school. In practical terms, this means adjustments must be planned and implemented in advance to prevent any disadvantage. Discussions around responsibility for provision should not impact on the delivery of service, as delays could be detrimental to the education and wellbeing of the learner;

- Must make arrangements to promote cooperation between various bodies or persons, with a view to improving, among other things, the wellbeing of children in relation to their physical and mental health, their education, training and recreation. When making these arrangements, local authorities should ensure appropriate agreements are in place for data sharing. This could be through working within the Wales Accord on Sharing Personal Information (WASPI) Information Sharing Protocols or Data Disclosure Agreements;
- Must make reasonable provision of counselling services for young people aged 11 – 18 and learners in Year 6 of primary school. Within schools, this provision should complement the different approaches already in place to support the health, emotional and social needs of learners;
- Should work with education settings to ensure learners with healthcare needs received a suitable education. Where a learner of compulsory school age would not receive a suitable education for any period because of their health, the local authority has a duty to make arrangements to provide suitable education. If a learner is over that compulsory school age but under 18, the local authority may make such arrangements;
- Should provide support, advice and guidance, including how to meet the training needs of education setting staff, so that governing bodies can ensure the support specified within the individual healthcare plan (IHP) can be delivered effectively.

3.7 NHS Wales school health nursing service, health and other professionals, third sector organisations and other specialist services

Healthcare and practical support can be found from a number of organisations. Education settings have access to a health advice service. The scope and type of support the service can offer may include:

- Offering advice on the development of IHPs;
- Assisting in the identification of the training required for the education setting to successfully implement IHPs;
- Supporting staff to implement a learner's IHP through advice and liaison with other healthcare, social care and third sector professionals.

Health advice and support can also be provided by specialist health professionals such as GPs, paediatricians, speech and language therapists, occupational therapists, physiotherapists, dieticians and diabetes specialist nurses. In addition, third sector voluntary bodies can provide advice and practical support. Proactively engaging with specialist services can provide practical help when writing and implementing IHPs. They can also provide training and awareness raising resources, including video links.

4. Creating an accessible environment

Local authorities and governing bodies ensure their education settings are inclusive and accessible making reasonable adjustments for learners with healthcare needs. This includes the following:

4.1 Physical access to education setting buildings

A duty is placed on local authorities to produce a written accessibility strategy for all schools they are responsible under the Equality Act 2010. Any such strategy is expected to address:

'improving the physical environment of schools for the purpose of increasing the extent to which disabled learners are able to take advantage of education and benefits, facilities or services provided or offered by schools' (schedule 10, Equality Act 2010)

Similarly, individual schools must carry out accessibility planning and are under a duty to prepare an accessibility plan following the same principles as the strategies prepared by the local authority.

4.2 Reasonable adjustments – auxiliary aids or services

The Equality Act 2010 places a duty on learning establishments to make 'reasonable adjustments' for learners who are disabled as defined by the Act. In regard to these learners, auxiliary aids or services (with the appropriate number of trained staff) must be provided.

4.3 Day trips and residential visits

4.3.1 Governing Bodies will aim to ensure St Mary's Catholic Primary School actively supports all learners with healthcare needs to participate in trips and visits. Governing bodies must be aware of their legal requirements to make reasonable adjustments to trips and residential visits ensuring full participation from all learners.

4.3.2 Staff will aim to be aware of how a learner's healthcare needs may impact on participation, and seek to accommodate any reasonable adjustments, which would increase the level of participation by the learner. Staff should consider how to accommodate the sharing of personal information with third parties if necessary for off-site activities (in compliance with the Data Protection Act 1998 and in respecting the learner's rights to privacy). This may include information about the healthcare needs of learners, what to do in an emergency and any additional support, medication or equipment needed. At St Mary's Catholic Primary School, individual risk assessments for all educational visits are completed by the teacher in charge and authorised by a senior member of staff.

4.3.3 Additional safety measures to those already in place in school may be necessary to support learners with health care needs during visits or activities outside of the normal school timetable. Where necessary, arrangements for taking medication and ensuring sufficient supplies for residential visits may be required and will be taken into account when planning the visit.

4.3.4. All staff supervising visits are made aware of a learner's healthcare needs and any medical emergency procedures. Summary sheets are held by the lead member of staff and any adult assigned to a learner, containing details of his/her needs and any other relevant

information provided by parents. If appropriate, a volunteer staff member will be trained in administering medication, if they have not already been so trained, and should take responsibility in a medical emergency.

Parents may be asked to supply:

- Details of medical conditions;
- Emergency contact numbers;
- The learner's GP's name, address and phone number;
- Information on whether the learner has spent a night away from home before and their ability to cope effectively;
- Written details of any medication required (including instructions on dosage/times) ;
- Parental permission if the young people needs to administer their own medication or agreement for a volunteer staff member to administer;
- Information on any allergies/phobias;
- Information on any special dietary requirements;
- Information on any toileting difficulties, special equipment or aids to daily living;
- Special transport needs for learners and young people who require help with mobility;
- 'Fit to travel' certificate written by the GP/consultant if the child has a significant medical need (without this the insurance maybe invalid).

4.4. Social Interactions

4.4.1. The Governing Body aims to ensure the involvement of learners with healthcare needs is adequately considered in structured and unstructured social activities, such as during breaks, breakfast club, productions, after-hours clubs and residential visits

4.4.2. St Mary's Catholic Primary School makes all staff aware of the social-barriers learners with healthcare needs may experience and how this can lead to bullying and social exclusion. A proactive approach is used to remove any barriers.

4.5 Exercise and physical activity

4.5.1. St Mary's Catholic Primary School fully understands the importance of all learners taking part in physical activities and staff make appropriate adjustments to sports and other activities to make them accessible to all learners, including after-hours clubs and team sports.

4.5.2. Staff are made fully aware of learners' healthcare needs and potential triggers. They know how to respond appropriately and promptly if made aware that a learner feels unwell. They should always seek guidance when considering how participation in sporting or other activities may affect learners with healthcare needs.

4.5.3. Separate 'special provisions' for particular activities will be avoided, with an emphasis instead on activities made accessible for all. Where this might not be possible, advice from healthcare or physical education professionals and the learner will be sought (eg in the case of visual or hearing impairment)

4.5.4. Staff also understand that it may be appropriate for some learners with healthcare needs to have medication or food with them during physical activity; such learners should be encouraged to take the medication or food when needed.

4.6 Food Management

4.6.1. Where food is provided by or through St Mary's Catholic Primary School, consideration must be given to dietary needs of learners, e.g. those who have diabetes, coeliac disease, allergies and intolerances

4.6.2. Where a need occurs, St Mary's Catholic Primary School will aim to provide menus to parents and learners in advance, with complete lists of ingredients and nutritional information. Gluten and other intolerances or allergens must be clearly marked. Providing information will help facilitate parent and catering teams' collaborative working. This is especially important when carbohydrate counting is required. Consideration should be given to availability of snacks. Sugar and gluten free alternatives should always be available. As some conditions require high calorific intake, there should be access to glucose rich food and drinks where necessary.

4.6.3. Food provided for trips must reflect the dietary and treatment needs of the learners taking part. The risk assessment highlights such needs. Food provided for snacks in classroom settings should also take the dietary and treatment needs of these learners into account. While healthy school and 'no sweets' policies are recognised as important, learners with healthcare needs may need to be exempted from these policies. Learners needing to eat or drink as part of their condition should not be excluded from the classroom or put in isolation.

4.7 Risk assessments

4.7.1. Staff are clear when a risk assessment is required and are aware of the risk assessment systems in place. If in doubt, the staff member should seek clarification from the head teacher. They should start from the premise of inclusion and have built into them a process of seeking adjustments or alternative activities rather than separate provision.

4.7.2. In addition, there are duties under the Equality Act 2010 to prepare and implement accessibility strategies and plans. These strategies and plans deal with matters related to increasing participation of disabled learners.

4.7.3 St Mary's Catholic Primary School uses the Evolve System to record all risk assessments, additional information is provided for learners with additional medical/physical needs.

5. Sharing Information

The Governing Body ensures healthcare needs arrangements, both school's policies and IHPs, are supported by clear communication with staff, parents and other key stakeholders

to ensure full implementation. It is deemed essential that all information is kept up to date. All information sharing techniques such as staff noticeboards and school intranets must be agreed by the learner (where able to do so) and parent in advance of being used, to protect confidentially.

5.1. Teachers, supply teachers and support staff (this may include catering staff and relevant contractors)

5.1.1. Staff will know how to access the relevant information, particularly if there is a possibility of an emergency situation arising.

Class registers contain information about specific health needs and the supply-teacher planning form has provision for information about health issues and procedures.

IHPs are not displayed in the staffroom as they contain confidential information and the staff room is open to visitors and parents.

A staffroom noticeboard provides details of safeguarding personnel, registered first aiders and emergency procedures.

At all times the learner's right to privacy must be taken into account.

The St Mary's Catholic Primary School office administration system (SIMS) and staff meetings are utilised to help ensure staff are aware of the healthcare needs of learners they have or may have contact with.

5.2. Parents and learners

5.2.1. Parents and learners are active partners, and to achieve this St Mary's Catholic Primary School aims to make parents fully aware of the care their child receives. Parents and learners are made aware of their own rights and responsibilities. To help achieve this St Mary's Catholic Primary School:

- Makes healthcare policies easily accessible, online and in hard copy;
- Provides the learner/parents with a copy of their information sharing policy. This states the type of bodies and individuals with whom the learner's medical information may be shared;
- Ask parents to sign a consent form, which clearly details the bodies, individuals and methods through information will be shared. Sharing medical information can be a sensitive issue and the learner should be involved in any decisions. St Mary's Catholic Primary School keeps a list of what information has been shared with whom and why, for the learner/parent to view on request;
- A web link to the healthcare needs policies is included in relevant communications sent to parents, and within the learner's IHP;
- Include school councils, 'healthy schools' and other learner groups in the development of the school's healthcare needs arrangements, where appropriate;
- Consider how friendship groups and peers may be able to assist learners, e.g., they could be taught the triggers and signs of issues for a learner, know what to do in an emergency,

and who to ask for help. St Mary's Catholic Primary School will discuss with the learner and parents first and decide if information can be shared.

6. Procedures and record keeping for the management of learners' healthcare needs

6.1. At St Mary's Catholic Primary School, healthcare procedures state the roles/responsibilities of all parties involved in the identification, management and administration of healthcare needs.

Head teacher: Miss C Russell

ALNCo: Mrs S Richards

First Aiders: Miss Nicola Baker, Mrs Pat Searle, Mrs Rebecca Kemble, Mrs Laura Ahmun

Intimate Care: all staff are able to give intimate care with the requirement of two staff each time.

Changing nappies/ toileting needs of young children: all staff are able to change nappies and support pupils with toileting with the requirement of one or two staff, depending on the situation and needs of the pupils.

Documentation:

- ✓ Contact details for emergency services
- ✓ Parental agreement for educational setting to administer medicine
- ✓ Head Teacher agreement to administer medicine
- ✓ Record of medicine stored for and administered to an individual learner
- ✓ Record of medicines administered to all learners by date
- ✓ Request for learner to administer own medicine
- ✓ Staff training record – administration of medicines
- ✓ Medication incident form

6.2 New records will be completed when there are changes to medication or dosage. St Mary's Catholic Primary School ensures that the old forms are clearly marked as being no longer relevant and stored in line with their information retention policy.

6.2.1. All administration of medication must be recorded on the appropriate forms. If a learner refuses their medication, staff should record this and follow the defined procedures where parents will be informed of this non-compliance as soon as possible.

7. Storage, access and the administration of medication and devices

Learners may require medication at school for many reasons and this should only be administered with prior agreement and consent given by the parent/legal guardian. **Medicines should only be given if prescribed by the GP.** No child under 16 should be given medicines containing Aspirin.

A learner requiring medication will require an Individual Healthcare Plan (IHP).

7.1 Arrangements to give medication in setting

- A parental request form will be completed each time there is a request for medication to be administered by setting staff, or for a learner to self-administer their own medication. This arrangement must be agreed, documented and dated by the Head teacher. A copy must be kept on file.
- In the case where medication maybe a long term arrangement, a letter must accompany the request from the learner's GP or consultant explaining this.
- Amendments to the medication should only be accepted in writing from a health professional and this should again be kept on file. **Verbal messages will not be accepted.**

7.2 Receiving medication in Setting

No medication should be accepted into an education setting unless it is clearly labelled with the:

- Learner's name
- Name and strength of medication
- Dosage, frequency and time the medication should be given
- Expiry date
- Advice about storage

7.3 Storage of medication

- Medication will be stored in a locked cupboard away from other children and young people. The key should be kept in an accessible place known to the designated members of staff. Some medications require refrigeration. If storage in a refrigerator is required this should be in a sealed container that is clearly labelled. All medicines must be clearly labelled. Further advice can be obtained from the **COSHH guidelines, Control of Substances Hazardous to Health, 2002**¹.
- In most cases learners should be allowed to carry asthma inhalers with them to ensure easy access. Again this should be reflected in the learners' IHP.
- Local pharmacists can give advice about storing medicines.

7.4 Administering medication

- Any staff willing to administer medication must receive appropriate training and guidance, and be aware of any possible side effects of the medication. This can be found in the specific medication information leaflet.
- Parents must not send the medication to St Mary's Catholic Primary School in pre-drawn doses/syringes (unless this is how it is dispensed by the pharmacist) or in drinks. It must come in the original packaging with a pharmacy label intact. There must be a syringe provided to help in the measurement of the correct dose.
- Medicines must only be given according to the prescription given by the GP. Parents should ensure a copy of this is available for St Mary's Catholic Primary School. The school requires written notification from the GP should doses change or medications change.

¹ Control of Substances Hazardous to Health (COSHH) Regulations (2002) amended as required www.hse.gov.uk

- Medicines should not be given if they are out of date. Parents will need to replace the medicines immediately and it is the parent's responsibility to dispose of any unwanted medicines.
- It is best practice that there should be two members of staff to check the medication when it is time to administer it. The following details should be checked:
 - **Right Learners** (name and date of birth)
 - **Right Medicine** (staff should be aware of the purpose of the medication)
 - **Right Dose** (measured using a syringe)
 - **Right Route** (orally/gastrostomy/nasogastric)
 - **Right Time**
- The learner may self-administer some medications e.g. asthma inhalers. It should be clear in the forms relating to medications in school whether the learner requires supervision or not. It is good practice to record when a learner has medication even if self-administering.
- Appropriate measures should be put in place or alternative arrangements if named staff are unavailable or absent.
- There should be a completed form to show the learner's name and DOB, the date, time and medication name and dose and two staff should sign this. Accurate recording is of the utmost importance.
- Staff should not give any medication if a medical judgement is required to determine the need unless an emergency but this should be in accordance with the agreed IHP.

7.5 Hygiene and Infection Control

- All staff will be familiar with normal procedures for avoiding infection and follow basic hygiene procedures. Staff will have access to protective disposable gloves and take care when dealing with spillages of blood or other body fluids and disposing of dressing or equipment.

7.6 Disposal of medications

- Medications should always be returned to the parent to be disposed of. If this is not possible any unused medications should be returned to a local pharmacy.
- Medications should not be disposed of in sinks or toilets.
- Some medications (i.e. for diabetes) are pre-assembled and contain a needle. Sharps boxes are essential for the disposal of needles and these can be obtained by contacting your local pharmacy or speaking to the nurse assigned to St Mary's Catholic Primary School.

7.7 Emergency Medications

- Emergency medications (i.e. epi pen, buccal midazolam) must have an IHP detailing how to administer it and what to do in the event of an emergency.
- The location of emergency medications should be easily known and accessible to all staff but not accessible to other children .

- Emergency medications must not be used for another learner displaying the same symptoms. If there are concerns an ambulance must be called. Medication can only be given to the learner it is intended for.
- Staff will receive training in how to administer any emergency medications. If a learner forgets their emergency medications the parent must either bring it in immediately or the learner must go home
- Parents and GP must always be informed if emergency medications have been given and records should be retained at the school.

8. Emergency Procedures

8.1. Governing bodies ensure a policy is in place for handling emergency situations. Staff will know who is responsible for the policy, nominated first aiders and how to deal with common healthcare needs. In situations requiring assistance, 999 will be called immediately. The location of learners' healthcare records and emergency contact details is known to staff.

8.2. Where a learner has an IHP, this should clearly define what constitutes an emergency and explain what to do. Staff should be made aware of emergency symptoms and procedures.

8.3. Other learners in St Mary's Catholic Primary School should also know what to do in general terms in an emergency, such as to inform a member of staff immediately. If a learner needs to be taken to hospital, a staff member will stay with the learner until a parent arrives. This includes accompanying them in an ambulance to hospital. The member of staff will have details of any known healthcare needs and medication.

8.4. Learners will not be taken to hospital in staff cars unless there are extreme reasons. If this is necessary, another adult must accompany learner and staff member. Staff must have public liability vehicle insurance.

9. Training

9.1 Governing bodies must ensure staff who volunteer or who are contracted to support those with healthcare needs are provided with appropriate training. Governing bodies will also ensure their policies clearly set out how a sufficient number of these staff will be identified and supported.

9.2 When assisting learners with their healthcare needs, it is recognised that for many interventions no specialist training is required and the role of staff is to facilitate the learner to meet their own healthcare needs.

9.3 IHPs may reflect complex needs requiring staff to have specific information and training. This training may also be in the use of aids such as hearing aids (staff will be shown how to change batteries) and various adaptive technologies. If these have been instigated by health professionals, they can be asked to provide suitable training for education settings as well as learners and families.

9.4 Training provided will be sufficient to ensure staff are competent, have confidence in their ability to support learners and fulfil IHP requirements. Crucially this training will involve input from

the learner and parents, who often play a major role in providing information on how needs, can be met. However, parents should not be solely relied upon to provide training about the healthcare needs of their child.

9.5 If a learner has a complex needs, input may be needed from healthcare services and the local authority who will be able to advise and signpost to further training and support.

9.6 All staff, irrespective of whether they have volunteered to assist or support learners with healthcare needs, may come into contact with learners who have healthcare needs. It is therefore advisable that all staff have a basic understanding of common conditions to ensure recognition of symptoms and understand where to seek appropriate assistance. For further information with regard to common condition see Cardiff Local Authority Healthcare Toolkit.

9.7 Policies will include a procedure on how to raise awareness of common conditions, a healthcare needs policy and staff roles in carrying out arrangements. New and temporary staff will especially be made aware of what preventative and emergency measures are in place so staff can recognise the need for intervention and react quickly.

9.8 If the trained staff who are usually responsible for administering medication are not available, the IHP should set out alternative arrangements. This also needs to be addressed in risk assessment and planning of off-site activities.

10. Qualifications and assessments

10.1 Efficient and effective liaison is imperative when learners with healthcare needs are approaching assessments, including those undertaking examinations in hospital or at home. The coursework element may help learners to keep up with their peers. The home and hospital teachers may be able to arrange for concentration on this element to minimise the loss of learning while they are unable to attend. Liaison between St Mary's Catholic Primary School and the hospital teacher or home tutor is most important, especially where the learner is moving from education setting or home to the hospital on a regular basis.

10.2 Awarding bodies may make special arrangements for learners with permanent or long term disabilities and learning difficulties, or temporary disabilities and illnesses, who are taking public examinations. Applications for special arrangements should be submitted by schools to the awarding bodies as early as possible. Full guidance on the range of special arrangements available and the procedures for making applications is given in the Joint Council for Qualifications' circulars Adjustments for candidates with disabilities and learning disabilities (2016).

11. Education other than at school (EOTAS)

11.1 A learner who is unable to attend their education setting because of their healthcare needs will have their educational needs identified, and receive educational support as quickly as possible so they continue to be provided with suitable education. The nature of the provision should be responsive; reflecting the needs of what may be a changing health status.

11.2 Where absences are anticipated or known in advance, close liaison between the school and local authority should enable the EOTAS service to be provided from the start of the absence.

11.3 Cooperation between education, health and administration staff in hospital is essential. The aim should be to achieve the greatest possible benefit for the learner's education and health,

which should include the creation of an atmosphere conducive to effective learning. Parents can also be a valuable link.

11.4 Learners with complex healthcare needs may be discharged from hospital with a written care plan. Where this happens, the written care plan will be integrated into any IHP.

12. School transport

12.1 There is a statutory duties on the local authority, head teacher and governing body in relation to learners travelling to the place where they receive their education or training. For example, depending upon the circumstances, the local authority may need to arrange home to school transport for a learner, or provide appropriately trained escorts for such journeys to facilitate the attendance of a learner.

13. Reviewing policies, arrangements and procedures

13.1 Governing bodies ensure all policies, arrangements and procedures are reviewed regularly. IHPs may require frequent reviews depending on the healthcare need – this will involve all key stakeholders including, where appropriate, the learner, parents, education and health professional and other relevant bodies.

14. Insurance arrangements

14.1 Governing bodies of maintained education setting should ensure an appropriate level of insurance is in place to cover the setting's activities in supporting learners with healthcare needs. The level of insurance should appropriately reflect the level of risk. Addition cover may need to be arranged for some activities or healthcare procedures for learners with particular needs.

15. Complaints procedure

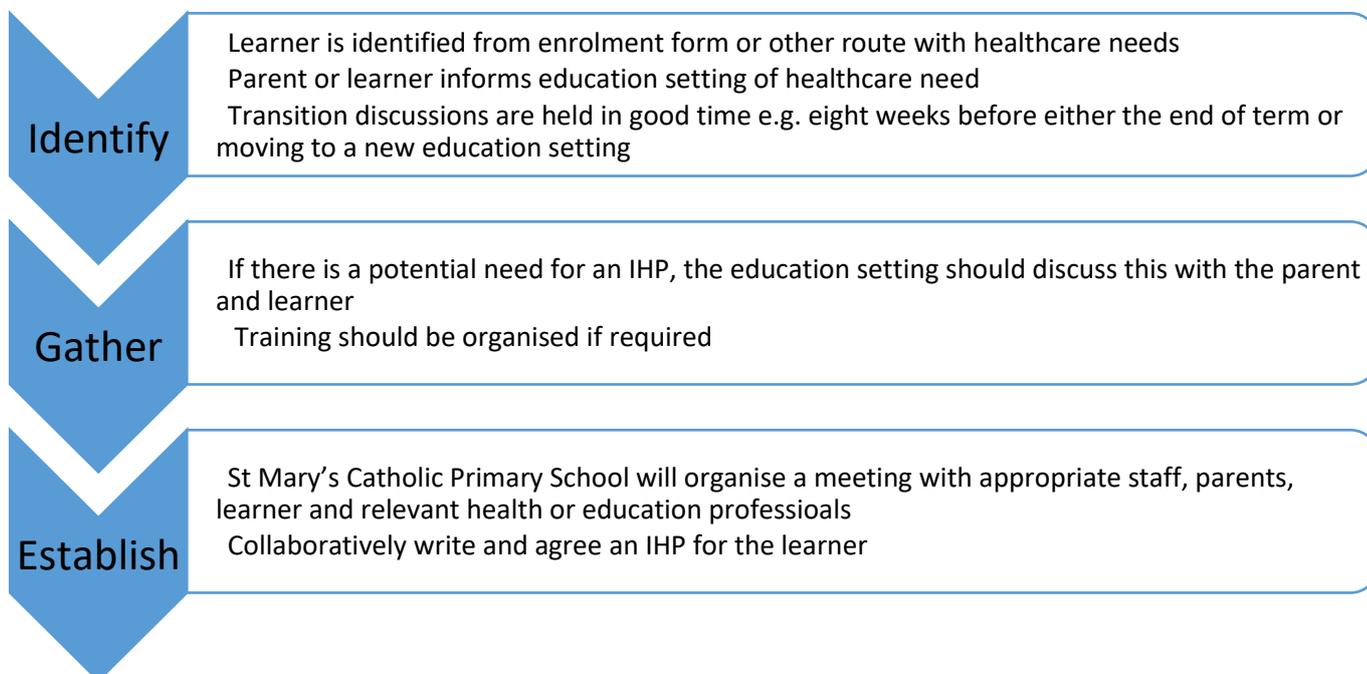

See Complaints Procedure policy.

16. Individual Healthcare Plans (IHP)

16.1 Governing bodies ensure that St Mary's Catholic Primary School's policy covers the role of IHPs, and who is responsible for their development in supporting learners at an education setting with medical conditions.

16.2 An IHP can assist settings identify the necessary safety measures to support the learner with a healthcare need and ensure that they and others are not put at risk. They will often be essential, such as cases where conditions fluctuate or where there is a high risk that emergency intervention will be needed. They are likely to be helpful in the majority of cases, especially where the medical condition is long term and complex. However, not all children and young people will require one.

16.3 An Individual Health Care Plan can clarify for settings, parents and the learner the help that the setting can both provide and receive. There should be a level of flexibility to account for any unexpected changes in the learner's healthcare needs.

16.2 Roles and Responsibilities in the creation and management of IHPs

16.2.1 IHPs do not need to be complex but they explain how the learner's needs can be met. AN IHP should be easily accessible to all who need to refer to it, while maintaining the required levels of privacy. Each captures key information and actions required to support the learner effectively.

16.2.2 A health professional must take a lead role in writing a Health Care Plan; this could be the school nurse, specialist nurse, special needs health visitor or consultant. Their knowledge of the condition, medication, emergency procedures and the learner is paramount. This is completed, where possible, involving the:

- ✓ The learner (where possible)
- ✓ Parent/carer
- ✓ Input or information from previous education setting
- ✓ Appropriate healthcare professionals
- ✓ Social care professions
- ✓ Head teacher and/or delegated responsible individual for healthcare needs across the setting
- ✓ Teacher and support staff, including catering staff if necessary
- ✓ Any individual with relevant roles such as a first aid coordinator, a well-being officer and ALNCo (Additional Learning Needs Coordinator)

- ✓ Setting staff who have agreed to administer medication or be trained in emergency procedures

An Individual Healthcare Plan (IHP) may include:

- ✓ The medical condition: its triggers, signs, symptoms and treatments and how it is managed on a day to day basis, in particular during setting hours
- ✓ The learner's needs: including medication (dose, side effects and storage) and other treatments; time; facilities; equipment; testing; access to food and drink where this is used to manage their condition; dietary requirements; and environmental issues e.g. crowded corridors, travel time between lessons
- ✓ Specific support for the learner's educational, social and emotional needs
- ✓ The level of support needed (some learners will be able to take responsibility for their own healthcare needs) including in an emergency
- ✓ Who will provide this support, their training needs and expectations of their role
- ✓ Who in the setting needs to be aware of the learner's healthcare needs and the support they require
- ✓ Protocol for exchanging information between education and health (if necessary)
- ✓ Written permission from parents and the Head Teacher for the administration of medicines by staff or self-administration by the learner during setting hours
- ✓ Separate arrangements or procedures required for setting trips or other setting activities outside of the normal setting timetable that will ensure the learner can participate e.g. risk assessments
- ✓ Where confidentiality issues are raised by the parent/child/young person, the designated individuals to be entrusted with information about the child's condition
- ✓ Home to school transport – this is the responsibility of the local authority
- ✓ Emergency Procedures including whom to contact, and contingency arrangements. Some learners may have an emergency health care plan prepared by their lead clinician that could be used to inform the development of their individual health care plan
- ✓ An impact statement jointly produced by healthcare professional and a teacher) on how the learner's healthcare condition and/or treatment affects their learning and what actions are required to mitigate these effects
- ✓ Review date

16.2.3 If the plan needs revising St Mary's Catholic Primary School and the health professional(s) meet with the parents and a new plan is written and signed by all parties.

16.2.4 The plan is made available to **all staff** coming into contact with the learner

16.2.5 If the learner's condition is degenerative or life threatening, the plan will reflect these additional needs and provides sufficient information to setting staff. The plan will include details of the condition, what to do and who to contact in an emergency. More frequent reviews will be required for those with conditions that are technologically dependent or potentially life limiting.

16.2.6 In most cases, especially concerning short term illnesses such as those requiring a course of antibiotics, a detailed IHP will not be necessary. In such circumstances it may be sufficient to record the name of medication, dosage, time administered and any possible side effects. These procedures will be confirmed in writing with the learner (where appropriate), the parents and St Mary's Catholic Primary School.

16.3 Coordinating information with healthcare professional(s), the learner and parents

The way in which a learner's healthcare needs are shared with social and healthcare professionals depends on their requirements and the type of education setting. The IHP will explain how information is shared and who will do this. This individual can be a first point of contact for parents and staff and will liaise with external agencies.

16.4 Confidentiality

It is important that relevant staff (including temporary staff) are aware of the healthcare needs of their learners, including changes to IHPs. IHP will likely contain sensitive or confidential information. The sharing, and storing of information must comply with the Data Protection Act 1998 and not breach the privacy rights of or duty of confidence owed to the individuals.

16.5 The learner's role in managing their own healthcare needs

Learners who are competent to do so will be encouraged to take responsibility for managing their own medicines and procedures. This should be reflected within the learner's IHP.

Where possible, learners will be allowed to carry their own medication and relevant devices, or be able to quickly access their medication. Some learners may require an appropriate level of supervision.

If a learner refuses to take their medication or carry out a necessary procedure, staff cannot force them to do so, but follow St Mary's Catholic Primary School's defined arrangements, agreed in the IHP. Parents should be informed as soon as possible so that an alternative arrangement can be considered and health advice will be sought where appropriate.

17. Unacceptable Practice

It is not acceptable practice to:

- Prevent learners from attending education or reduce hours due to their healthcare needs, unless this would be likely to cause harm to the learner or others;
- Prevent learners from easily accessing their inhalers, medication and administering of their medication when and where necessary ;
- Assume every learner with the same condition requires the same treatment;
- Ignore the views of the learner or their parents, or ignore healthcare evidence or opinion;

- Send learners with healthcare needs home frequently for reasons associated with their medical condition or prevent them from staying for normal setting activities, including lunch, unless this is specified in their IHP or risk assessment ;
- Send a learner that becomes ill or needs assistance to the office or medical room unaccompanied or with someone who is unaware of the learners' needs or unable to properly monitor them;
- Penalise a learner for their attendance record if their absences are related to their medical condition e.g. hospital appointments;
- Prevent learners from drinking, eating or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively;
- Require parents, or otherwise make them feel obliged, to attend St Mary's Catholic Primary School, trip or other off site activity to administer medication or provide healthcare support to the learner, including for toileting issues;
- Prevent, or create unnecessary barriers for learners from participating in any aspect of education setting life, including setting trips e.g. by requiring parents to accompany the child;
- Ask a learner to leave the classroom or activity if they need to administer non personal medication or consume food in line with their health needs;
- Expect or cause a parent to give up work or other commitments because the education setting is failing to support a learner's healthcare needs;
- Request adjustments or additional time for a learner at a late stage. They should be applied for in good time. Consideration should also be give to adjustments or additional time needed in mock examinations or other tests.

Please refer to the 'Unacceptable Practice' section in the Welsh Government's 'Supporting Learners with Healthcare Needs' statutory guidance.

Outline of legal framework

There are various duties on schools and local authorities which are relevant to safeguarding the welfare of children and young people with healthcare needs in the educational context. The main provisions are outlined below.

This is not an exhaustive list of the law relevant to this subject. Nor is it an authoritative statement or description of the law, which only courts can give. The descriptions below are summaries of the main relevant provisions. For any particular duty, there will be further statutory provisions and there may be case law (and possibly such developments after the issue of this guidance), affecting the meaning of the provisions (e.g. defining terms), or how a function is to be exercised (e.g. matters to which the person exercising the function must have regard). It should not be relied upon as a substitute for seeking legal advice or reading the actual provisions. Legislation can be found at www.legislation.gov.uk though it is not all in revised and up to date form.

General

As part of the common law, those responsible for the care and supervision of children and young people, including teachers, and other staff in charge of children, owe a duty of care to act as any reasonably prudent parent would in relation to their own children.

A person without parental responsibility for a child or young person, but with the care of that child, may do what is reasonable in all the circumstances of the case for the purpose of safeguarding or promoting the child's welfare. This is subject, for example, to a court order prohibiting certain steps being taken in relation to that child or young person without the Court's consent (**Section 3(5) of the Children Act, 1989**)².

Statutory duties on governing bodies of maintained schools

- In discharging their functions relating to the conduct of the school, governing bodies of maintained schools (including maintained nursery schools) must promote the well-being of pupils at the school (**Section 21(5) of the Education Act, 2002**)³.
- Governing bodies of maintained schools (including maintained nursery schools) must make arrangements for ensuring that their functions relating to the conduct of the school are exercised with a view to safeguarding and promoting the welfare of children and young people (i.e. those under 18) who are pupils at the school (**Section 175(2) of the Education Act, 2002**). In considering what arrangements are required, the governing body is to have regard to any guidance by the Welsh ministers⁴ (**Section 175(4) of the Education Act, 2002**). Governing bodies are also subject to duties under the **Equality Act, 2010**⁵ – see the section below for more details.

Statutory duties on local authorities

- Local authorities have general functions in relation to providing education for their area (*in particular sections 13 to 14, 15A, 15B of the Education Act, 1996*)⁶.
- A local authority must make arrangements for the provision of suitable education (at school or otherwise), for children of compulsory school age who may now otherwise receive it for any period due to illness, exclusion from school or otherwise (*Section 19(1) of the Education Act, 1996*). For young persons (i.e. those who are over compulsory school age but under the age of 18), local authorities have a power (rather than a duty), to make such arrangements in those circumstances (*Section (4) of the Education Act, 1996*). In determining what arrangements to make under *Section 19(1) or 19(4)*, in the case of any child or young person, the local authority must have regard to any guidance given by the Welsh ministers.

² **Children Act, 1989** - <http://www.legislation.gov.uk/ukpga/1989/41/contents/enacted>

³ **Education Act, 2002** - <http://www.legislation.gov.uk/ukpga/2002/32/contents>

⁴ This power is now vested in the Welsh Ministers, rather than the National Assembly for Wales, by virtue of paragraph 30 of Schedule 11 to the **Government of Wales Act, 2006** - <http://www.legislation.gov.uk/ukpga/2006/32/contents>

⁵ **Equality Act, 2010** - <http://www.legislation.gov.uk/ukpga/2010/15/contents>

⁶ **Education Act, 1996** - <http://www.legislation.gov.uk/ukpga/1996/56/contents>

- A local authority must make arrangements for ensuring that their education functions are exercised with a view to safeguarding and promoting the welfare of children and young people (i.e. under 18 years old), (**Section 175(1) of the Education Act, 2002**).

In considering what arrangements are required, the local authority is to have regard to any guidance given by the Welsh Ministers (see footnote 3 on previous page), (**Section 175 (4) of the Education Act, 2002**). Some of this guidance is issued under **Section 175(4)** –it is marked in bold font.

- Local authorities have general duty to safeguard and promote the welfare of children and young people in need within their area (and so far as consistent with that, to promote the upbringing of those children by their families) by providing a range and level of services appropriate to those children’s needs (**Section 17 of the Children Act 1989**).
- Local authorities must make arrangements to promote cooperation between various persons and bodies, including a local health board for an area within the local authority’s area and an NHS Trust providing services in the area. The arrangements are to be made with a view to:
 - Improving the well-being of children and young people within the area;
 - Improving the quality of care and support for children and young people provided in the area (when amendments made by the **Social Services and Well-Being (Wales) Act, 2014** come into force)⁷.
 - Protecting children and young people who are experiencing or at risk of, abuse and other harm (when those amendments come into force), (**Section 25 of the Children Act, 2004**)⁸.
- **The Education (School Premises) Regulations, 1999, S.I. 1999/2**⁹ set out requirements (for which local authorities are responsible) regarding facilities at maintained schools. These include requirements regarding accommodation for medical examination and treatment of pupils and the care of sick or injured pupils (*Regulation 5*).
- Local authorities also have duties under the **Equality Act, 2010** – see below.

The Equality Act, 2010

Disability is a protected characteristic under the **Equality Act, 2010**¹⁰. Some learners with healthcare needs may be disabled for the purposes of that Act; others may not be. There are

⁷ **Social Services and Well-Being (Wales) Act, 2014** - <http://www.legislation.gov.uk/anaw/2014/4/contents/enacted>

⁸ **Children Act, 2004** - <http://www.legislation.gov.uk/ukpga/2004/31/contents>

⁹ **Education (School Premises) Regulations, 1999, S.I. 1999/2** - <http://www.legislation.gov.uk/uksi/1999/2/contents/made>

¹⁰ **Equality Act, 2010** - <http://www.legislation.gov.uk/ukpga/2010/15/contents>

various duties under the **Equality Act, 2010** which are relevant in the context of learners with healthcare needs who are disabled.

The responsible body of a school must not discriminate, harass nor victimise disabled pupils and in some cases, other particular persons. The responsible body is also subject to a duty to make reasonable adjustments (*Section 85 of the Equality Act, 2010*).

Local authorities must prepare and implement an accessibility strategy in relation to schools for which they are the responsible body. This is a strategy for (over a particular period):

- a) Increasing the extent to which disabled pupils can participate in the schools' curriculums;
- b) Improving the physical environment of the schools for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the schools;
- c) Improving the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled (*paragraph 1 of Schedule 10 to the Equality Act, 2010*).

The responsible body of a school must prepare and implement an accessibility plan. Such a plan involves the same content as an accessibility strategy except that it relates to the particular school (*Paragraph 3 of Schedule 10 to the Equality Act, 2010*).

In relation to a maintained school and maintained nursery, the responsible body is the local authority or the governing body. In relation to a pupil referral unit, it is the local authority.

Local authorities and the governing body of local authority maintained educational establishments (e.g. maintained schools) are subject to the public sector equality duty. This requires them, in the exercise of their functions, to have due regard to particular matters related to equality (*Section 149*). They are also under specific duties for the purpose of enabling better performance of the public sector equality duty (**Equality Act, 2010, (Statutory Duties) (Wales) Regulations, 2011 S.I. 2011/1064**).

Other relevant provisions

The **Learner Travel (Wales) Measure, 2008**¹¹ places duties on local authorities and governing bodies in relation to home-school transport.

The **Data Protection Act, 1998**¹² regulates the processing of personal data, which includes the holding and disclosure of it.

¹¹ **Learner Travel (Wales) Measure, 2008** - <http://www.legislation.gov.uk/mwa/2008/2/contents>

¹² **Data Protection Act, 1998** - <http://www.legislation.gov.uk/ukpga/1998/29/contents>

The **Misuse of Drugs Act, 1971**¹³ and regulations made, deal with restrictions (for example, concerned with supply and possession), on drugs which are controlled. Learners may be prescribed controlled drugs.

Appendix 3:2

Useful relevant legislation for England and Wales

The legislation listed below can be referred to clarify the main provisions relevant to children and young people with healthcare needs.

- ❖ **Children and Families Act, 2014 (Section 100)**¹⁴ - places a duty on governing bodies of maintained schools, proprietors of academies and management committees of PRUs to make arrangements for supporting pupils at their school with medical conditions.
- ❖ **Section 21 of the Education Act, 2002**¹⁵ – provides that governing bodies of maintained schools must, in discharging their functions in relation to the conduct of the school, promote the wellbeing of pupils at the school.
- ❖ **Section 175 of the Education Act, 2002** – provides that governing bodies of maintained schools must make arrangements for ensuring that their functions relating to the conduct of the school are exercised with a view to safeguarding and promoting the welfare of children who are pupils at the school. Paragraph 7 of Schedule 1 to the Independent School Standards (England) Regulations 2010 set this out in relation to academy schools and alternative provision academies.
- ❖ **Section 3 of the Children Act, 1989**¹⁶ – provides a duty on a person with the care of a child (who does not have parental responsibility for the child) to do all that is reasonable in all the circumstances for the purposes of safeguarding or promoting the welfare of the child.
- ❖ **Section 17 of the Children Act, 1989** – gives local authorities a general duty to safeguard and promote the welfare of children in need in their area.
- ❖ **Section 10 of the Children Act, 2004**¹⁷ – provides that the local authority must make arrangements to promote cooperation between the authority and relevant partners (including the governing body of a maintained school, the proprietor of an academy, clinical commissioning groups and the NHS Commissioning Board, with a view to improving the wellbeing of children, including their physical and mental health, protection from harm and neglect, and education. Relevant partners are under a duty to cooperate in the making of these arrangements.
- ❖ **Equality Act, 2010**¹⁸ – the key elements are as follows:

¹³ **Misuse of Drugs Act, 1971** - <http://www.legislation.gov.uk/ukpga/1971/38/contents>

¹⁴ <http://www.legislation.gov.uk/ukpga/2014/6/contents/enacted>

¹⁵ <http://www.legislation.gov.uk/ukpga/2002/32/contents>

¹⁶ <http://www.legislation.gov.uk/ukpga/1989/41/contents>

¹⁷ <http://www.legislation.gov.uk/ukpga/2004/31/contents>

¹⁸ <http://www.legislation.gov.uk/ukpga/2010/15/contents>

- They **must not** discriminate against, harass or victimise disabled children and young people
- They **must** make reasonable adjustments to ensure that disabled children and young people are not at a substantial disadvantage compared with their peers. This duty is anticipatory: adjustments must be planned and put in place in advance, to prevent that disadvantage
- ❖ **Education Act, 1996, Chapter 1 (Special Educational Needs)**¹⁹
- ❖ **Care Standard Act, 2000**²⁰
- ❖ **Health and Safety at Work Act, 1974, Section 2**²¹ - and the associated regulations, provides that it is the duty of the employer (local authority, governing body or academy trust) to take reasonable steps to ensure that staff and pupils are not exposed to risks to their health and safety.
- ❖ **Misuse of Drugs Act, 1971**²² – and associated regulations the supply, administration; possession and storage of certain drugs are controlled. Schools may have a child who has been prescribed a controlled drug.
- ❖ **Medicines Act, 1968**²³ – specifies the way that medicines are prescribed, supplied and administered within UK and places restrictions on dealings with medicinal products, including their administration.

Other relevant legislation

- ❖ **Every Child Matters, 2003**²⁴
- ❖ **UN Convention on the Rights of the Child, 1989**²⁵
- ❖ **Management of Health and Safety at Work Regulations, 1999**²⁶
- ❖ **Control of Substances Hazardous to Health Regulations, 2002**²⁷
- ❖ **The Regulatory Reform (fire safety) Order, 2005**²⁸
- ❖ **Chronically Sick and Disabled Persons Act, 1970**²⁹

3. **Healthcare Form Templates**

- Form 1 – Contacting emergency services
- Form 2 – Parental agreement for education setting to administer medicine
- Form 3 – Headteacher/head of setting agreement to administer medicine
- Form 4 – Record of medicine stored for and administered to an individual learner
- Form 5 – Request for learner to carry/administer their own medicine
- Form 6 – Staff training record – administration of medicines
- Form 7 – Medication/healthcare incident report

Form 1: Contacting emergency services

Request for an Ambulance

Dial **999**, ask for an ambulance, and be ready with the following information where possible.

1. State your telephone number.
2. Give your location as follows **St. Mary's Catholic Primary School, Wyndham Crescent, Canton, Cardiff.**
3. State that the postcode is **CF11 9EF.**
4. Give the exact location in the education setting – **in the middle of housing with no car park.**
5. Give your name.
6. Give the name of the learner and a brief description of symptoms.
7. Inform Ambulance Control of the best entrance and state that the crew will be met **outside the school on the pavement.**
8. Don't hang up until the information has been repeated back.

Speak clearly and slowly and be ready to repeat information if asked to.

Put a completed copy of this form by all the telephones in the education setting.

Form 2: Parental agreement for education setting to administer medicine

St. Mary's Catholic Primary School needs your permission to give your child medicine. Please complete and sign this form to allow this.

Name of education setting

Name of child

Date of birth

Group/class/form

Healthcare need

Medicine

Name/type of medicine

(as described on the container)

Date dispensed

Expiry date

Agreed review date to be initiated by [name of member of staff]

Dosage and method

Timing

Special precautions

Are there any side effects that the setting needs to know about?

Self-administration (delete as appropriate) **Yes/No**

Procedures to take in an emergency

Contact details

Name

Daytime telephone no.

Relationship to child

Address

I understand that I must deliver the medicine personally to [*agreed member of staff*]

I understand that I must notify the setting of any changes in writing.

Date

Signature(s)

Form 3: Headteacher/head of setting agreement to administer medicine

Name of setting

St. Mary's Catholic Primary School

It is agreed that [name of learner] will receive

[quantity or quantity range and name of medicine]

every day at [time medicine to be administered, e.g. lunchtime/afternoon break]

[Name of learner] will be given/supervised while

they take their medication by [name of member of staff]

This arrangement will continue until [either end date of course of medicine or until

instructed by parents/carers]

Date

Signed

[The headteacher/head of setting/named member of staff]

Form 4: Record of medicine stored for and administered to an individual learner

Name of setting

St. Mary's Catholic Primary School

Name of learner

Date medicine provided by parent
